## 5. Newborn Construction Kft. QA/QC & HSE

Our goal is to create value for all of our stakeholders, catch our position among the leading corporations in the sector domestically and internationally and carry on our activities in continual improvement.

In order to reach this goal, we emphasize on the following principles:

- To ensure continuity of satisfaction of our customers and other stakeholders,
- To operate in accordance with contract requirements as well as relevant prevailing regulations and standards, and fulfill applicable requirements of related parties,
- To use resources in the most efficient manner with a sense of Environmental Consciousness by encouraging sustainable utilization of resources, to protect environment and prevent environmental pollution,
- To operate in such a manner that protects employees' health and assures occupational safety; and prevent injuries and occupational diseases,
- To realize continuous improvement by implementing systematic and effective methods to increase our quality, and environmental and occupational health and safety performances,
- To ensure sharing of experiences and continuity of organizational memory, and
- To preserve, enhance and ensure sustainability of our corporation's human resources, financial power and accumulations.

In line with these principles, we aim to increase the value added to our employees and society, eliminate environmentally harmful conditions, and provide necessary conditions for ensuring occupational health and safety. Furthermore, having these principles adopted by all our employees, and known and understood by our stakeholders shall be the fundamental basis for reaching our goals.

#### LETTER OF RECOMMENDATION FOR YAŞAR AKÜZÜM

This letter is prepared to serve as recommendation for Yaşar Aküzüm. Yaşar Aküzüm is working as a manager for eight years at Kurbanoğlu Construction and Engineering where I am founder ever since 2010. Before working together, he participated in many construction project in many different countries .By means of working abroad ,he improved his abilities about management construction project.

We had completed over fifteen construction projects with Yaşar Aküzüm around Kocaeli in TURKEY. He was working very actively every part of construction project and he is open mind about innovation. In these projects, He managed infrastructure works ,projects and employee management based on his high quality experience. Every project we worked together ,he had finished his works on time as we promised to our customer and he gained customer confidence and satisfaction.

He is also taking care occupational health and safety around and inside the construction. We never faced fatal accident thanks to his prevention actions.

He is always making straight and right decision about his works. And his right decisions made him reliable and respectful person in every work. His determination and forward looking made us one step forward against our competitor and made us bigger construction company than before. As a Kurbanoğlu Construction and Engineering ,we wish Yaşar Aküzüm continues his success at Newborn Construction KFT in Hungary.

Baycan Aküzüm

General Manager

29 October 2019

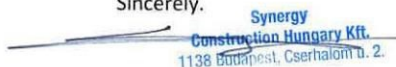

To Whom It May Concern:

Our company has had the pleasure of doing business with **Newborn Construction Kft.** for last 2 years. They have always operated in a professional and ethical manner and have successfully completed many affordable projects over that period of time. These projects are;

- Rebar works of Danubio Project
- Rebar works of BUD Airport Cargo Project
- Rebar and formwork for MOL Polyol Project (continues)

They come highly recommended by Contractors and Construction Managers. I am very pleased to offer the highest possible recommendation for Newborn Construction as an excellent subcontractor.

Sincerely,

  
Synergy  
Construction Hungary Kft.  
1138 Budapest, Cserhalom u. 2.

TOPUKCU Serkan  
Project Manager
